

Senior Full Stack Engineer ? FinTech Platform

Company: NovaPay (Series B, \$42M raised)

Location: Sydney CBD (Hybrid - 3 days in office)

Salary: \$160,000

About NovaPay

NovaPay is building the future of payments. We're currently looking for a Senior Full Stack Engineer to join our team. NovaPay is building the future of payments. We're currently looking for a Senior Full Stack Engineer to join our team.

The Role

We're looking for a Senior Full Stack Engineer to own key product surfaces across our merchant dashboard and payments API. You'll work closely with product and design to ship features that directly impact revenue. This is a high-autonomy role - you'll architect solutions, mentor junior engineers, and contribute to technical direction.

Requirements

• 5+ years of professional software engineering experience

- Strong proficiency in TypeScript and React (Next.js preferred)
- Backend experience with Node.js or Python (FastAPI, Django, or Express)
- Production experience with PostgreSQL and Redis
- Familiarity with cloud infrastructure (AWS or GCP)
- Experience building and consuming RESTful APIs
- Understanding of CI/CD pipelines and automated testing
- Experience with payment systems, financial APIs, or regulated industries is a strong plus
- Strong communication skills and ability to work cross-functionally

Nice to Have

• Experience with event-driven architectures (Kafka, SQS)

- Familiarity with event-driven architectures (Kafka, SQS)
- Experience with infrastructure-as-code (Terraform, Pulumi)
- Contributions to open source projects
- Prior startup experience (Series A?C)

What We Offer

• Competitive salary and benefits package

- Flexible hybrid work (3 days in Sydney CBD office)
- \$3,000 annual learning budget
- 4 weeks paid leave + birthday off
- Health & wellness allowance
- Team offsites twice a year
